

Pentominoes and Tetrominoes

Giovanni Resta 2004 g.resta@iit.cnr.it

Up to now I didn't find independently a solution to T5 U4. The one (shown for the sake of completeness) is by Helmut Postl. The image has been stolen from a Livio Zucca page.

Tetromino I

F5 – T5						
U5 – Z5						

Tetromino L

F5 – T5						
U5 – Z5						

Tetromino N

F5 – T5						
U5 – Z5						

Tetromino Q

F5 – T5
